YOU RELAX. iMOW®.

THE STIHL iMOW® ROBOTIC MOWER. LAWNCARE MADE EASY.

NEW

RMI 522 C ROBOTIC LAWNMOWER

EASY AND CONVENIENT MOWING FROM THE COMFORT OF YOUR HOME OR OFFICE!

With app control, this robotic mower is suitable for mid-sized lawns up to 2100m². The 522C iMOW® cuts, shreds and fertilises in one step as a mulch mower, while ensuring excellent results and cutting pattern.

RMI 522 C
iMOW® ROBOTIC LAWNMOWER
FOR MEDIUM SIZED LAWNS

10kg • Cutting Width 20cm
Maximum Lawn Area (Up to Approx) 2100m²
Max mowing angle 22° or 40% gradient

$3,445*

*Includes iMOW®, Battery and Docking Station. Installation price not included.

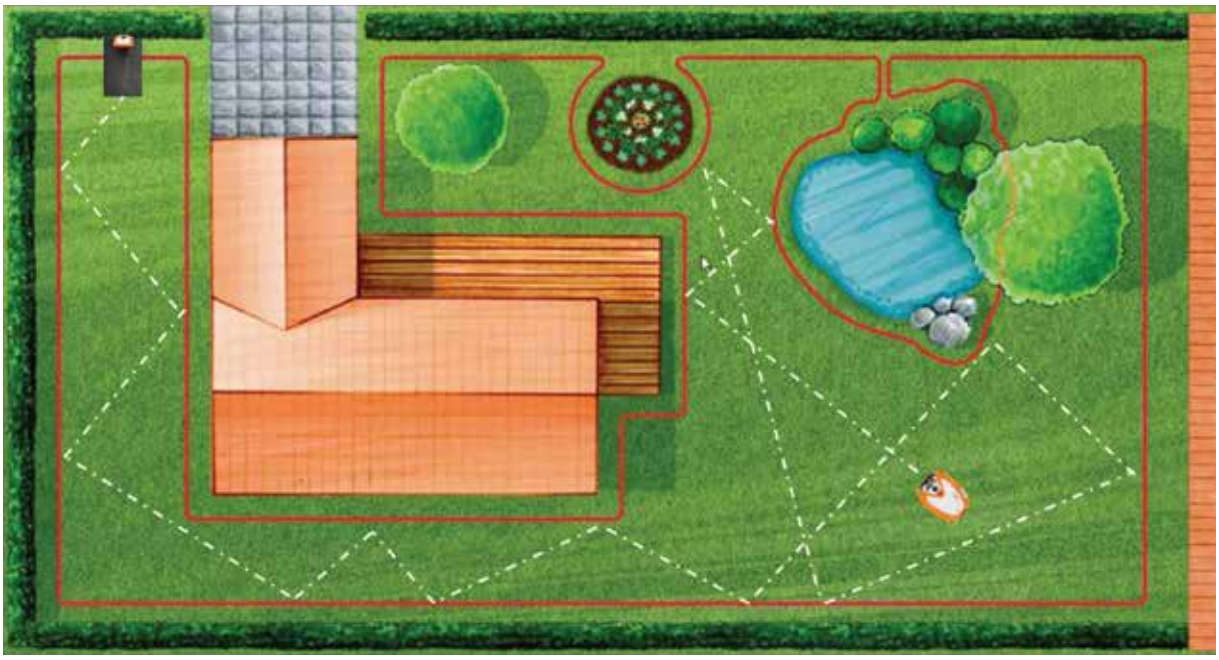
APP CONTROL

The iMOW® app transforms a STIHL iMOW® robotic mower into a standalone smart garden system. The intuitive app menu can be accessed via smartphone or tablet, which means that many mowing settings can be made not only directly on the machine but also while on the move. The free iMOW® app offers a real-time overview of main functions and performance data.

Using the interactive mowing plan, time windows can be defined for each day during which the iMOW® robotic mower works flexibly and independently and charges its battery. Thanks to the integrated rain sensor and receipt of online weather forecasts, the automatic lawn mower only mows in suitable weather conditions. Using GPS localisation, the current location can also be viewed and a desired zone can be defined as the preferred mowing location at a specific time.

SCAN THE QR CODE FOR MORE INFORMATION

Offers apply to selected products and valid from 01 March 2022 - 31 May 2022 or while stocks last.
Prices shown are recommended retail prices only. See in-store and online at participating retailers for details.



- For lawns up to 2100m²
- Adapts its speed according to incline & terrain
- Operates rain or shine
- Quiet mowing
- Equipped with PIN code and Security Alarm
- The blade is designed to stop when the machine is lifted
- Intelligent charging
- Changes direction after bumping into obstacles

ROBOTIC LAWNMOWERS ARE ONLY AS GOOD AS THEIR INSTALLATION

At STIHL SHOP, we have trained experts that will perfectly install your iMOW® to suit your garden.

Prices shown are recommended retail prices only. See in-store and online at participating retailers for details.

InStart™

Briggs & Stratton's low emission InStart® lithium-ion electric start engine provides effortless push button starting. With no need to prime, choke or pull start your engine, you will be up and mowing fast, first time every time.
One charge of the Lithium-ion batteries will provide nearly a whole season of starts.
Choice of two InStart systems: Integrated InStart® - the battery is integrated into the engine or InStart® - the battery can be removed and charged separately.
Easy to use and no more back strain when starting your mower. InStart® - takes the guessing game out of starting your lawn mower, just push the button and start mowing.*

Self Propelled with Ezi-Drive™

Masport's new Ezi-Drive self propelled drive system allows you to effortlessly walk behind your Masport President lawnmower without the need to push.

The EZI Drive single speed drive system is smooth to operate and propels the mowers at a comfortable 4.4km/h walking pace.
Simply engage the drive bail to start mowing and release it to stop, it's that easy.
Just squeeze the handle and let the mower do the work for you. *

Handle Lift System

The Handle Lift System allows you to quickly and easily access the catcher. Simply step on the foot pedal and lift the handle. Once the handle is returned to the operating position it will lock in place.

Zone Start

The conveniently positioned starter cord eliminates the need to bend all the way down to pull-start, reducing the risk of back strain.

HDPE Plastic Catcher

Sturdy long lasting high density polyethylene plastic catcher that holds 42 litres of grass clippings. Some of these plastic catchers have a 'full indicator', allowing the operator to gauge how much grass is in the catcher.

Briggs & Stratton DOV 750 Engine

The Briggs & Stratton 161cc 750 Series™ DOV® ReadyStart™ engine is easy to start and comes with a cast iron sleeve for increased durability and longevity. The patented Direct Overhead Valve (DOV®) engine delivers more torque, improved sound quality, and less noise and vibration than competitive engines in the same class.

Mulching

Naturally recycles the grass by recutting it and feeding it back into your lawn.

Industry Leading Warranties

Masport® lawnmowers with Briggs & Stratton™ engines receive an industry leading exclusive 5 year comprehensive warranty on the entire mower*. Giving extra confidence and longevity for these lawnmowers.

* Please refer to **masport.co.nz** for full warranty information. Not all features available on all mowers.

RIDE-ON MOWERS

STIHL SHOP is bringing you a wide range of Ride-On Mowers. We are the only Nationwide Retailer to offer both Rover and Cub Cadet, with over a dozen models to choose from, we've got what you need.

Cub Cadet

Since 1961, Cub Cadet Products have been proudly manufactured and distributed from America and have been sold in New Zealand for over 30 years.

Cub Cadet Ride-On Mowers and Zero-Turn Mowers come standard with the strongest cutting systems for mowing performance, and refined ergonomics in style, strength and in comfort; including an array of attachments and accessories for year-round versatility and utility. When it comes to the power and performance, it's an obsession, our consumers just love the precision, the control, and the power only a Cub Cadet can deliver in order to maintain their lawn and garden for that Cub Cadet Signature Cut.

All Cub Cadet Ride-On Mowers are fitted with Kawasaki, Kohler or Cub Cadet Engines, highlighted as the best and most reliable engines available in the industry.

With both mulching and catching options available, including a 2 Year warranty, easy maintenance, Cub Cadet is the solution for your next ride-on.

Drive it… we Dare you!

GX200 Engine • Electric Start

Superior performance in small packages. Ideal for home, leisure & professional electronic devices.

$5,099

FREE WHEEL KIT VALUED AT $325

NO MORE FUEL MIXING

With Honda's 4-stroke engines there is no need for fuel mixing. All motors run on unleaded petrol and because you don't need to mix oil with petrol your engine will run cleaner and longer.

4 YEAR DOMESTIC WARRANTY

Selected Honda power equipment comes with a 4 year domestic warranty* and with regular servicing by a Honda authorised dealer, using only Honda Genuine Parts and Accessories, your Honda product will work hard around your home for many years. Honda's comprehensive nationwide dealer network has New Zealand covered with highly trained technicians and knowledgeable sales staff to help you make the right choice.

FUEL EFFICIENT & ENVIRONMENTALLY FRIENDLY

Honda's 4-stroke engine technology offers superior fuel economy using approximately half the fuel of its 2-stroke counterparts. Its low vibration engine reduces user-fatigue making it the perfect engine for high-usage power equipment. Cleaner burning performance, low vibration and noise also mean it's much healthier for the environment and the operator - they are built like no other.

Offers apply to selected products and valid from 01 March 2022 - 31 May 2022 or while stocks last.
Prices shown are recommended retail prices only. See in-store and online at participating retailers for details.
